Content

- Dear Reader!
- 2013 has been a good year for DAAD and Germany's Higher Education and Research and longer German research in the most frequently cited journal articles, according to a recent SCImago and more international students have also shown themselves for their studies, among them around 2000 Indonesians. In the same year of 2013/14 376 Indonesians successfully graduated from a German university, 100 more than in the year before. Additionally, the faculty-to-faculty partnerships between German and Indonesian universities were sponsored under DAAD schemes. DAAD's Indonesia budget has steadily been growing. The Jakarta Office was present at 12 educational fairs and information events at our country, and the new DAAD lecturers organized their events at their own discretion.
- Cooperation with DAAD alumni has again been a particular pleasure. The DAAD alumni network continues to be established in various countries. One of our Indonesian alumni in 2013, supported by the endorsement of our alumni in East Java, we launched an art and craft fair to raise awareness about the DAAD alumni network. The DAAD alumni network is a platform for DAAD alumni to organize their own learning course – the "National Alumni Education Program" – for their own students to gain another leading player in Indonesian Higher Education as a partner. KCP/ST/17 p.23.
- Read more on current scholarships (p.5), DEES activities (p.4) and the DAAD JAVIA ACTION PLAN (p.11). This newsletter has also provided a great platform for those of you who want to set up more structured and broader cooperation between German and Indonesian universities (p.9). We hope you enjoy the read and find the information useful. Your feedback (to: media@daad.org) is very welcome. Please let us know if the DAAD office regularly contacts you and we will be happy to answer your questions and help you wherever we can! Check our social media for the regular updates.
- With regards,
Dr. Svann Langguth
