

Background

- COP17 and FD5
- Idea of Student-Workshop around FD:
- after COP15;
- Successful implementation in 2010 in Cancún,
México.
- We will NOT be at the COP nor at negotiations !!

Slide 2

Objectives

1. Offer an “entry” point for interested students into the “world of forest and climate”.
2. Strengthen the links to our international partners and partner universities.

Slide 14

Potential risks and side-effects

- **ALL** participants join this project on their own responsibility.
- **ALL** participants must check the South Africa relevant security advices on the homepage of their foreign ministries !!
- While we made the planning so far with great care, changes may occur.
- Probably: Students can support FD5 implementation by acting as **Conference Assistants**.
